GEOCAST BEAMS

Geocast is a newly developed, non combustibile material composed of natural inorganic minerals. It is non-toxic, unburnable and perdurable (extremely durable), while integrates the high moldability possessed by synthetic materials.

FLUES

KC Twinwall has been designed with the installer in mind with a wide range of installer friendly components. It is quick and easy to install leaving you with a clean lined system to the highest standards and the unique, robust jointing system ensures a positive fit on every joint that is secured with a locking band. KC with its open ended construction, eradicates the problem of hotspots within the joints leaving a continuous full insulated chimney throughout.

FLUE LINERS

**10 YEAR
GUARANTEE**

All products are HETAS approved and carry a CE certificate and a 10 year manufacturer's guarantee.

Smooth inner skin provides resistance to corrosive attack due to easydrain down of condensate, less opportunity for soot collection and smooth surface for ease of sweeping.

Lead times may be longer

Boxed and lipped hearths have 1/2" over hang

Riven slate hearths use honed slate risers

We recommend that any bespoke hearth deeper than 15" cut for solid fuel should be cut into a minimum of 4 pieces including a heat plate
